## Professional profile

After 2 years of B.U.T. in networks and telecommunications, I would like to continue my work-study course in order to prepare a diploma in the specialty of operator networks and multimedia. Serious and motivated, I like to learn. This is why I would like to put my skills at the service of your company.

## Work experience

- 2022–today **Multi-service intervention technician, Orange, Strasbourg**  
General public technician involved in the installation of the connect pro offer from Orange. But also, fiber optic problems on the Orange network. I was faced with major challenges such as the time when we had to re-establish the connection between two major Orange sites. Every minute was counted.
- Summer 2022 **Order picker, SOCOMEC, Benfeld**  
I was in this company as an order picker, storekeeper. My role was to receive the orders by computer and then go and prepare them to finally ship them. The challenge of this job was for me to always find a way to optimize orders to take the least amount of time and take up the least space.
- Summer 2021 **Versatile agent at the vaccination center, City of Colmar, Colmar**  
The Colmar vaccination center recruited me in the midst of the rush of vaccinations against COVID-19. I was on the front line when it was necessary to welcome the vaccinated and prepare them. As in the last line when it was necessary to prepare their health passes. The challenge was to always succeed in keeping calm against people who could sometimes either be rude, or sometimes unreassured, anxious following the vaccine.

Summer 2020 **Rayonist, Pharmacy, Sainte-Croix-Aux-Mines**

I spent a summer in pharmacy as a rayonist. My role was to receive drug orders which were twice a day. And, once received, store them in the right drawers in the right places without making mistakes because it could compromise the work of pharmacists who could waste time looking for the right drugs.
